FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Terrance M. O'Reilly, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the director. A subsequent appeal was dismissed by the Associate Commissioner for Examinations. The matter is now before the Associate Commissioner on a motion to reopen and reconsider. The motion will be granted, the previous decisions of the director and the Associate Commissioner will be withdrawn, and the petition will be approved.

The petitioner is a music school which seeks to employ the beneficiary as a music instructor for a period of three years. The director determined the petitioner had not established that the proffered position is a specialty occupation.

On motion, counsel reiterates his argument that the proffered position is a specialty occupation. Counsel has provided significant new evidence.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary holds a Master of Music degree conferred by Louisiana State University. Accordingly, it is concluded that the petitioner has shown that the beneficiary qualifies to perform the duties of the proffered position.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge to fully perform the occupation in such fields of human endeavor, including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a

minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the proffered position are described in pertinent part as follows:

Conduct double reed clinics for students of various abilities and skill levels at public and private schools in Utah. Provide on-site technical assistance on school owned and privately owned instruments. Foster increased interest in double red playing by performing concerts and assemblies for students. Represent [the petitioner] in a positive and professional manner with educators, performers and music students. Provide technical and artistic input and assistance regarding double reed instruments ...

Counsel initially provided a letter from a similar employer which states that a bachelor's degree in music is required for positions such as the proffered position. Counsel has now provided nine additional letters from distinguished musicians and music educators which all agree that a music education position of this type and at this level of specialization requires a baccalaureate degree in music.

The proffered position appears to be primarily that of a musician. The Department of Labor's Occupational Outlook Handbook, 2000-2001 edition, at page 259 finds no requirement of a baccalaureate or higher degree in a specialized area for employment as a musician. Some musicians learn through private study. Others learn through

practice with a musical group. Still others attend colleges, universities, or conservatories. Nevertheless, in view of the expert opinions discussed above, it is concluded that a position of the type and complexity of the proffered position clearly requires a baccalaureate degree in music.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has sustained that burden. Accordingly, the decisions of the director and the Associate Commissioner will be withdrawn and the petition will be approved.

**ORDER:** The order of November 30, 1998 dismissing this appeal is withdrawn and the petition is approved.
